\*Available on latest generation M Series appliances

## A Firebox for Every Situation

Whether you have a single location, a small chain of restaurants, or thousands of retail locations around the world, WatchGuard has a solution that is right for your environment. We offer a full portfolio of Firebox appliances ranging from physical tabletop and rack-mounted models to virtualized and cloud-based solutions. [Learn more >](#)

*"The additional security layers that we add through WatchGuard provide exceptional value at a typically low price-point. We buy WatchGuard not simply because it's technically brilliant, but because there's a business need for it, focused largely on business risk."*

Andrew Evers, Head of IT, Reconomy
